

## KidPix Studio Deluxe® and unitedstreaming QuickTime Videos

*This tutorial was created with KidPix Studio Deluxe, Macintosh OS X, and QuickTime Player 6.*

To integrate video into your KidPix Slide Shows:

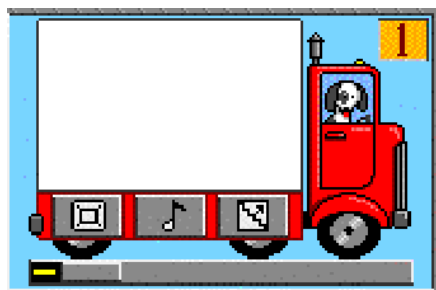

1. Download a unitedstreaming video and save it in a designated folder.

2. Open KidPix.

3. Select "Slide Show."

4. Bring in the video with the "Bring in Picture/Movie" icon.

5. You will now see "Pick a Picture" in the navigation window. Navigate to your QuickTime video (the icon may look like text instead of the QT icon).

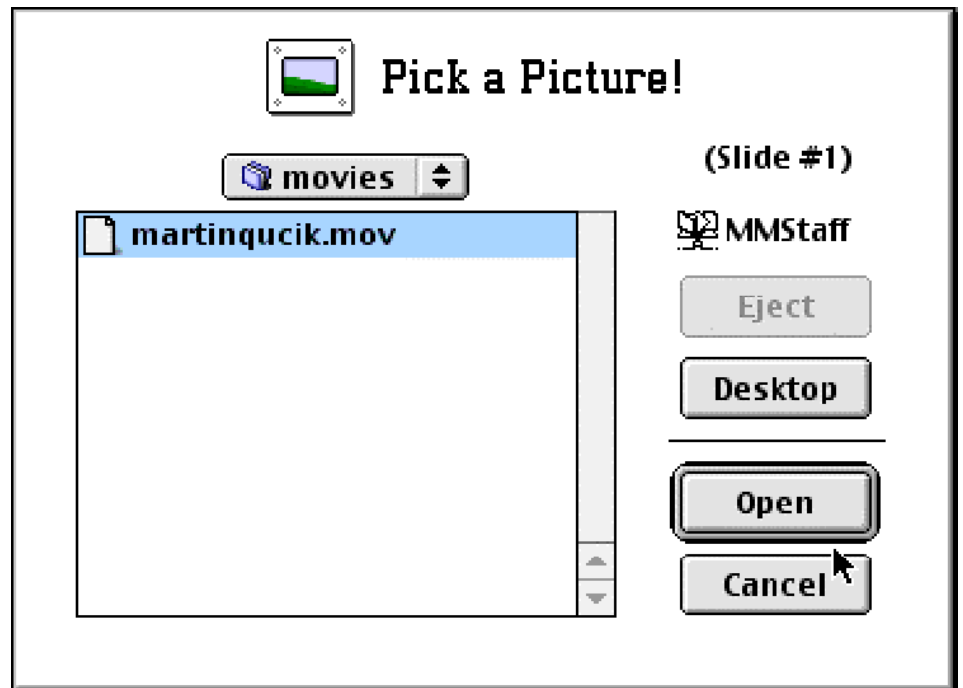

**Pick a Picture!**

6. Select the video by double-clicking on the video or clicking once on the video and then clicking "open."

*There will be a slight pause as the video is being imported.*

7. Click the "play" button located at the bottom of your slides.

8. When the video has finished, you will be brought back to your slides page.
